PROFESSIONAL EXPERIENCE

Network Operations Centre (NOC) Support Engineer May 2024 – Present
Integrated Power Technology Limited (*Sub-Contractor to American Tower Corporation - Direct vendor to MTN and AIRTEL*) Lagos

- Serve as the primary point of contact for customer-impacting technical incidents across more than 500 telecommunications sites, ensuring timely issue resolution, SLA compliance, and a positive customer experience.
- Coordinate field engineers, vendors, and cross-functional support teams to ensure timely resolution of customer-impacting incidents and adherence to service level agreements.
- Monitor service performance, identify recurring issues, and recommend preventive actions that improve operational efficiency and customer experience.

Network Operations Centre Support Engineer Jul 2022 – Apr 2024
Hatfield Consult Limited (*Sub-Contractor to American Tower Corporation - Direct vendor to MTN and AIRTEL*) Lagos

- Delivered professional customer support through multiple communication channels while coordinating with engineers to ensure timely resolution of customer-impacting incidents.
- Maintained detailed incident documentation, RCA reports, and service handovers to improve knowledge sharing and operational consistency.
- Collaborated with cross-functional engineering teams to prioritise incidents and improve overall customer satisfaction.

Information Technology Support Engineer Feb 2021 – May 2022
Smartware Innovation Kano

- Delivered first- and second-line technical support to over 100 end users, consistently achieving a 95%+ first-contact resolution rate while maintaining high customer satisfaction.
- Provided prompt and professional support for hardware, software, Microsoft 365, and network-related issues through remote and on-site assistance.
- Managed user accounts, password resets, and access permissions using Active Directory, ensuring secure and uninterrupted access to business resources.
- Coordinated onboarding and offboarding activities, including workstation deployment, email configuration, and user orientation for new employees.
- Collaborated with internal departments to resolve technical issues efficiently, minimising downtime and improving employee productivity.

- Reduced support tickets by 20% through proactive maintenance, user education, and preventive system optimisation.
- Implemented endpoint security and antivirus solutions, reducing unexpected system failures by 50%.
- Maintained accurate support documentation and asset records to improve service delivery and operational efficiency.

SELECTED ACHIEVEMENTS

- Maintained a 95%+ first-contact resolution rate while supporting over 100 corporate users.
- Reduced support tickets by 20% through proactive maintenance and user education.
- Improved service reliability by reducing system failures by 50% through preventive maintenance.
- Contributed to a 30% reduction in network downtime through effective incident management and escalation coordination.
- Helped the team earn the Team of the Year Award (2022) through collaborative service delivery and process improvements.

VOLUNTEER ACTIVITIES

Shenovate Mentor (Volunteer) - Frontend Developer Nov 2022
EnovateLab Foundation Lagos

- Mentored and trained 25 female college students in web development fundamentals, fostering technical skills, collaboration, and confidence in technology.
- Simplified technical concepts into easy-to-understand lessons, demonstrating strong communication, coaching, and interpersonal skills.
- Supported the Foundation's initiative to promote female participation in technology through knowledge sharing and mentorship.
